

CARBON REDUCTION PLAN

Carbon Reduction Plan

Supplier name: Precision Resource Group Limited

Publication date: February 2025

Commitment to achieving Net Zero

Precision Resource Group Limited is committed to achieving Net Zero emissions by 2025.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

BASELINE YEAR: 2022	
Additional Details relating to the Baseline Emissions calculations.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	32.399
Scope 2	68.765
Scope 3 Including business & commuting travel – air, rail, road. Computers, digital network, electricity, food & drinks, furniture, home working, hotel stays, IT.	530.408
Total Emissions	631.572

Current Emissions Reporting

REPORTING YEAR: 2025	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	tbc
Scope 2	tbc
Scope 3 (Included Sources)	tbc
Total Emissions	tbc

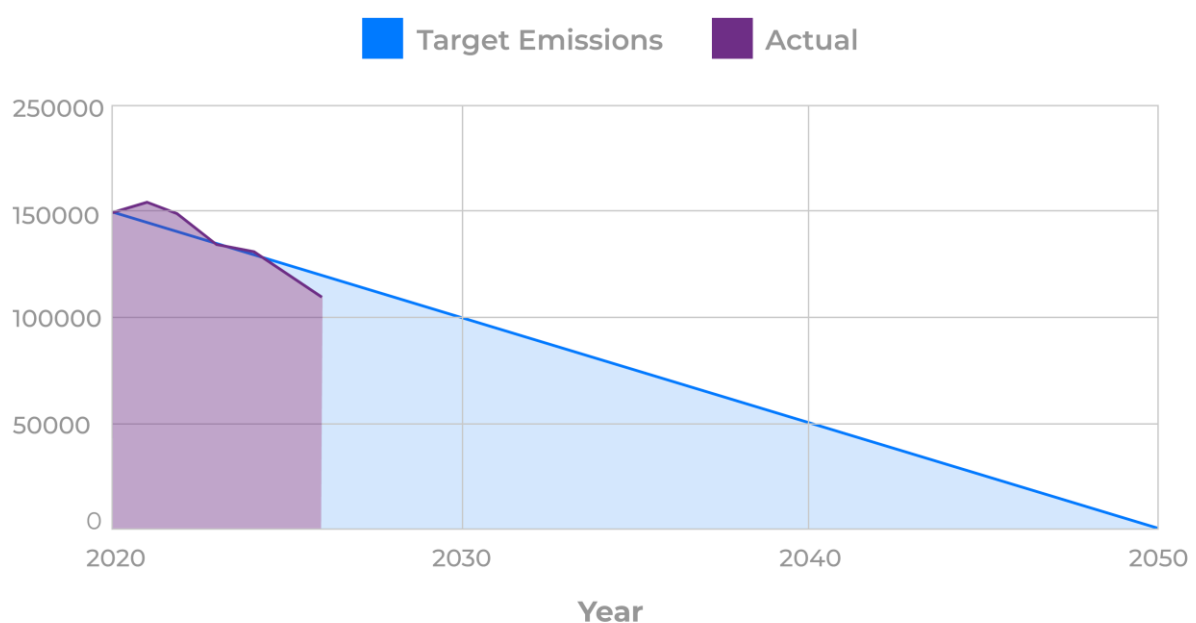

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 568 tCO₂e by 2027. This is a reduction of 10%.

Progress against these targets can be seen in the graph below:

Carbon Reduction: Projected vs. Actual

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline. The carbon emission reduction achieved by these schemes will be measured again this year.

We have undertaken the following initiatives, many of which will be ongoing to continue to reduce carbon emissions:-

We have established a Sustainability Council, a team of dedicated members who meet regularly to discuss and implement sustainability improvements.

Enhancing recycling practices – all paper and plastics are recycled.

Transitioning to a paperless office.

Promoting the use of reusables – there are sufficient mugs, glasses, and cutlery for everyone.

Given all employees' access to our electric vehicle scheme.

All company cars are now hybrid or fully electric.

Implemented a travel expenses policy to promote the most environmentally forms of travel and incentives lift-sharing.

Lobbied our landlord to move to the greenest energy provider possible - Brook Green Supply.

Partnering with a specialist carbon considerate office designer for the refit of the Bristol HQ, - this included furniture, flooring and finishes that were produced to the ISO14001 standards, more PIR lighting controls and all LED lighting.

Our pension provider allows for investment in environmental considerate schemes.

We have provided donations to the value of c. £10,000 to the World Land Trust to support tree planting and biodiversity.

We have supported various other environmental projects such as beach cleaning.

In the future we hope to implement further measures such as:

Committing to achieve the ISO 14001 environmental standard.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Precision Resource Group:
